## Insect screens - fresh air, all to yourself

**Just like any other insect screen, a Prowler Proof insect screen is designed to keep small intruders out.**

That's where the similarities end. Like all other Prowler Proof products, our insect screens are welded with robotic perfection. You'll enjoy the extra strength and the great look of the seamless corners every day.

The standard gauze is high quality, long lasting fibreglass but you can take it even further. An aluminium or a stainless steel gauze offers extra strength as well as protection from bushfire. A micro fibreglass gauze will keep out even the smallest insects and our pet safe polyester mesh is an economical solution if you have pets.

Thanks to Prowler Proof's automated 7-stage powder coating process, our insect screens are available in 50 standard colours...with more than 250 further options if your favourite colour is not within our standard range.

### QUICK REFERENCE

- Welded – no screws or rivets
- Maximum transparency
- Maximum airflow
- Insect protection
- Heavy duty aluminium frame
- High quality fibreglass gauze
- Wide range of gauze options
- Seamless corners
- More than 300 colours
- Corrosion resistant
- Low maintenance
- 10 year replacement warranty
